Instructions for Assignment on DVT

Final view:
- Students can make assumptions about the data and design the Story as per the assumptions made
- Students **must** have a Tableau Public Account & should publish the Story to Tableau Public **only**
- The end-product must be a Story
- There is no maximum limit on the number of sheets or a combination of dashboards used for the Story if it is relevant to one single intended message

Submission
- The Tableau Public Story URL need to be submitted in the LMS. To do that, please paste that URL to a word document and upload the same in the LMS.

Data set
- The students need to work on the data set provided in the excel format.

Due date:

- Final date of submission shall be announced by the program manager's office

Penalty for plagiarism:
- There shall be zero tolerance for plagiarism. Assignments shall be disqualified altogether if students have copied or plagiarized assignments.

Upon clicking the URL, one needs to ensure the first page of the story appears as the default view
